

Questions To Ask Any Roofing Contractor

- Is the roofing contractor in good standing with the Better Business Bureau?**
- Do they have credit references? Customer references?**
- How many years of experience do they have as a roofing contractor in North Texas?**
- Are they insured? Ask for a certificate of insurance.**
- Where is the roofing company located? How many years have they been in the same building?**
- Which roofing manufacturers are they certified to install?**
- Are they breaking Texas law by offering a "deal" to waive or absorb your deductible?**
- Are they a member of a roofing association that holds its members to high standards?**
- What is their warranty on labor? What is the manufacturer's warranty?**
- Is the contractor going to obtain the appropriate municipal permits?**
- Are they asking for money upfront? If so, is it just for materials after delivery to your project location?**
- Is the bid significantly lower than others? Why?**
Be careful to not pay more later by hiring a contractor that is uninsured, performs substandard work, is potentially using stolen materials and/ or leaves North Texas shortly after the storms do.

Save and print for reference before hiring a roofing contractor
